

# Partner Connect

Third-party geospatial data integrations for faster, smarter decisions.

Enhance your policy workflows with Betterview's extensive selection of geospatial data, sourced from trusted industry-leading providers, and combined into a single, symbiotic solution.

## The Power of Partner Integration:

### Centralize Data. Automate Workflows

A one-stop-shop for all the property data you need. Automate workflows to reduce underwriting time and effort.

### Instant, Seamless Integration

No IT effort required. Add partner data to your workflows through a simplified sales and onboarding process.

### Enhanced Risk Insights

Unify multiple data sources into a single solution for identifying and managing risk.

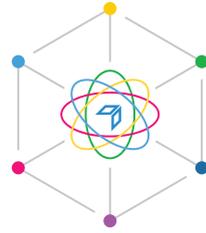

Example of partners in Partner Connect
